Weather Indications:

CHICAGO, Nov. 23.—Forecast for Kansas: Fair and warmer tonight and Saturday; westerly winds.

The Democrats are now trying to steal Tennessee. That is about the only way they are getting anything even in the south this year.

An Alabama paper says Kolb is insane. He has suffered wrong enough at the hands of the Democracy to make a man crazy, but there seems to be considerable method in his madness. If he succeeds in obtaining his rights he will likely inaugurate a new political era in the south.

There seems to be not enough business to go around among the undertakers at Ottawa and they have gone into the business of supplying their own corpses. Two of them got into a fight over a dead body yesterday and one stabbed the other so that it is thought he will die.

The men on Wall street have now, it seems, entered into an agreement to all bid the same amount for the bond issue, and divide the bonds between them. Competition is thus eliminated from the deal. Mr. Carlisle will be compelled to accept their price or not sell. Beautiful financial system.

The Mexicans are said to be spooling for a fight with Garibaldi. A considerable spirit of enterprise has developed in Mexico since so many Americans went down there, and if she should take in the Central American republics it might hasten the building of the Nicaragua canal.

No better evidence could be adduced that the people have heard all they care to about the tariff, than the fact that Congressman Wilson, the high priest of tariff reform talked to empty chairs in Baltimore one night this week. His lecture was well advertised, but the people wouldn't go. If the wishes of the people are consulted the tariff will not be disturbed in ten years. Financial legislation is what they want.

A Texas grand jury has returned an indictment against John D. Rockefeller and a number of other members of the Standard Oil company for conspiracy to control the coal oil market. Of course nothing will be done with them, but it will be amusing if they are all taken down to Texas for trial. Governor Hogg has indicated his purpose of issuing a regulation on Governor Flower for the criminal. Their guilt is established in advance, but how often do we hear of a millionaire being convicted of a crime and being punished for it?

The time seems to have arrived when something must be done in regard to the Indian Territory. There is a condition existing down there bordering on anarchy. There have come to be about as many whites as Indians in the territory, who, while they are in it, are not of it. The Indians cannot rid the country of them if they would. The Dawes commission, which has just submitted its report, recommends the allotment of the lands in severalty, the establishment of a territorial government and the abrogation of all former treaties on the theory that the provisions have become impossible of fulfillment.

SINCE July 1 of the current year the expenses of the government have exceeded its income by more than \$22,000,000. Sound business principles would seem to indicate that the income should be increased or the expenditures reduced, but then the present administration has never been accused of having any business principles. Regardless of the fact that the government has been getting deeper in debt ever since Mr. Cleveland became president, upwards of \$31,000,000 was expended during the last fiscal year on a worthless navy. If the country were rich and prosperous a navy might be all right as an ornament, but in any other way it is nearly useless; the truth of this is intensified when viewed in the light of Mr. Cleveland's foreign policy as exemplified in the Hawaiian matter. The administration has exhibited about as much sense as would a man who would mortgage his farm for money to erect a monument to his own memory.

THE A. R. U. strike leaders at Los Angeles, Cal., have been found guilty of conspiring to obstruct the United States mails, while "Gen." Sanders at Pueblo, has been acquitted of the charge of stealing a train. In the latter case the company withdrew the charge. Sanders secured considerable notoriety, some money and a wife out of the adventure. The Los Angeles people will probably get a term in prison. There are often many ways of doing the same thing.

KANSAS PARAGRAPHS.

A McPherson man has a clock which he claims was once the property of the Emperor Maximilian.

Emporia advances in some respects as the years roll by, but it hasn't got past the "Delectable School" entertainment stage. It was at McPherson that a woman sang, "Hark, Apollo strikes the lyre," and the audience said it served him right.

A railroad photograph car is rolling through southern Kansas, stamping business faces on cardboard for advertising purposes.

The living picture craze has struck Lawrence and overtures are being made to get the K. U. football team to represent Grief.

The Garnett Eagle called some fine blooded trotting horses "thoroughbreds," and is now ostracized by all horsemen till it learns the language.

In running passages of Scripture at the head of its editorial column, the Hiawatha World avoids all reference to the eighth commandment.

Atchison Globe: A man who neither chews nor smokes is always ready to take advantage of his opportunity to eat prunes when he goes into a grocery store.

An Ottawa minister has offered to marry any young woman free of charge who will give \$1 toward the payment of the church debt and furnish her own young man.

The Arkansas City papers overlooked a good thing when they let proxy Daniel Swannerson, the heroine of the Harper fire get into town without giving her a line.

Jeff Hudson has gone to the Indian Territory on a hunting trip in spite of his "disappearing law practice" that prevented his accepting the congressional nomination.

Albert Griffin's prediction that the suffrage amendment would carry by 100,000 will, in the light of the returns, make him forever solid with the north and south railroad.

A travelling showman refused to bill Nortonville because there were two religious meetings in progress. The man must have been running a mighty poor show and realized it.

Lawrence Gazette: A quarantined house in west Lawrence has out-diphtheria, scarlet fever and measles figs, and it now turns out that the patient is afflicted with the mumps.

Howard people thought they had found the depth of ignorance the other day when a strange young man came to town who had never played jack pots with a buck or used the joker ace or flush.

Nortonville News: They say that a woman in Valley Falls became indignant when a grocery clerk asked her to pay for a dollar's worth of sugar. "Young man," she said, "you can't fool me, sugar is on the free list!"

TELEGRAPHERS ORGANIZE.

They Meet at the Copeland and Elect Officers.

The Topeka division of the Order of Railroad Telegraphers which was instituted at the Copeland and last night elected the following officers: Chief, Frank Patterson, Topeka; Assistant Chief, L. C. Bagley, Topeka; Secretary and Treasurer, J. Kurn, Topeka; L. C. Messick, senior telegrapher; F. O. Hurt, junior telegrapher; G. W. Mitchell, inside sentinel; L. S. Alvord, outside sentinel; C. H. King, past chief.

A protective board was organized with L. A. Nesley of Topeka as general chairman and T. B. Nicholson of Holiday and L. R. Brown of Emporia as the other members. The jurisdiction of this board will extend over the entire Santa Fe system. The Topeka division includes the territory between Florence and Holiday.
